Thorn Street Median Improvement Project

Project Background

Thorn Street between Felton Street and 33rd Street is a two lane 70-foot wide residential street in the Altadena Neighborhood of North Park.

Project Overview

The project will involve construction of a new raised median with landscaping, irrigation and a community sign. There should be minimal to no impacts to residents and businesses in the area. Construction activity will take place at the median but it is not anticipated that Thorn Street will be closed or vehicular access impeded.

Construction Schedule

Construction Start:	February 2011
Scheduled date for completion:	June 2011
Plant Maintenance Period:	Six months

Contractor

A.B. Hashmi, Inc.

Cost

Total construction project cost is \$124,336.

“Working together to engineer a better tomorrow.”
